Plan to form Choral Society

Sir — I am sure that all music-lovers will welcome the suggested development of the use of St. Mary's Church, Nantwich, as an arts centre. ("Chronicle", July 20).

A flourishing and progressive choral society is essential to the cultural life of an area, and the encouraging attendance at the concert given in the church on June 23 by the choir sponsored by the W.E.A. shows that Nantwich can support its performances.

An inaugural meeting to establish a choral society on a permanent footing has been arranged for September 20. We hope that all those interested in the project, and especially new singing members, will make a note of the date. Details of time and place will be announced later.

BRIAN ROBERTS.
